Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars).

Digital design is engineering, and engineering means “problem solving.” My experience is that only 5%–10% of digital design is “the fun stuff”—the creative part of design, the flash of insight, the invention of a new approach. Much of the rest is just “turning the crank.” To be sure, turning the crank is much
