Embedded Coder offers built-in support for AUTOSAR, MISRA C <sup>®</sup>, and ASAP2 software standards. It also provides traceability reports, code documentation, and automated software verification to support DO-178, IEC 61508, and ISO 26262 software development. Embedded Coder code is portable, and can be compiled and executed

## Embedded Coder User Guide 2013a

Simulink Coder generates code with the purpose of the model being able to run standalone without a MATLAB license, or to verify the behavior of the generated code on a host computer. Embedded Coder generates readable code that can be much more finely configured, customized, and optimized through various settings and constructs.
