EPC-41 - Industrial Marine Power

What is the EPC Warning Light on Your Volkswagen? Your EPC Volkswagen warning light, also known as the Electronic Power Control warning light, is an indicator pointing to issues with your Volkswagen's throttle system. This could mean that the throttle pedal, throttle body, traction control, or cruise control unit need attention.

How to Fix EPC Light Volkswagen | What is EPC Warning ...

and control systems, Alfa Laval offers a reliable way to upgrade older generations of its control systems with new state-of-the-art control technology. The Alfa Laval EPC 60 Retrofit kit is specifically designed to replace all Alfa Laval separator electronic control systems in older separators, including the IPC 231, EPC 30, EPC 41 and EPC 400.

EPC 60 Retrofit - Alfa Laval

the EPC-2-D, ballast, and lamp(s) are all functioning correctly. This feature eliminates the need for time-consuming and costly manual monthly testing and is approved for this purpose. This also allows the unit to be installed in remote or inaccessible locations, because the unit does not rely on access to its manual test switch.

EPC-2-D Spec Sheet

• ancillary equipment including EPC-41 control unit. The separator can be delivered with or without built-on feed pump. An installation with a separate feed pump is recommended. Features and benefits The main features of the system are: • Simple and robust design. • EPC-41 electronic control unit with built-in PI temperature
