Our planetary system is located in an outer spiral arm of the Milky Way galaxy. Our solar system consists of our star, the Sun, and everything bound to it by gravity — the planets Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune, dwarf planets such as Pluto, dozens of moons and ...

Overview | Our Solar System - NASA Solar System Exploration

And the newly formed star was our Sun. It drew in most of the surrounding matter, but some escaped. And some of this material clumped together, settling into a protoplanetary orbit. Tasty morsels of gas and rock. Those chemically rich leftovers orbiting our young Sun were stewing with all the ingredients to form the planets in our Solar System.

Study Guide for The Planets & Our Solar System

The Solar System is the gravitationally bound system of the Sun and the objects that orbit it, either directly or indirectly. Of the objects that orbit the Sun directly, the largest are the eight planets, with the remainder being smaller objects, the dwarf planets and small Solar System bodies.

Solar System - Wikipedia

Our planetary system was formed 4.6 billion years ago! For most of history it was thought that everything in space moved around the Sun, however around the 17th century the idea, that the earth is just one of the planets in the system, started gaining popularity.

Solar System Facts for Kids | Planets for Kids | Geography ...

The solar system consists of the Sun, nine planets, some 60 or so moons, and assorted minor materials (asteroids, meteoroids, comets, dust, and gas). All of these objects are tiny in comparison to the distances that separate them. Imagine the solar system scaled down such that distances to the planets could be spaced along a 10-kilometer hiking trail. On such a scale the Sun would be ...

Introduction to the Solar System

2. Our feedback system only accepts ratings from customers introduced to companies via Solar Guide. This ensures all reviews are genuine and trustworthy. 3. Unlike many companies we actively monitor our installers based on high standards including minimum levels of feedback and industry required registrations.
