Most research papers fall into one of three categories: analytical, expository, or argumentative. If you're presenting an analysis of information, then your paper is analytical. If you're writing to explain information, then your paper is expository. If you're arguing a conclusion, then it's argumentative or persuasive.

### **This Is How to Write an Effective Research Paper | Grammarly**

Focus your research on a narrow topic. As you conduct research, try to make your paper's subject more and more narrow. You can't defend an argument about a super broad subject. However, the more refined your topic, the easier it'll be to pose a clear argument and defend it with well-researched evidence.
